when it came into force in 1994 the north american free trade agreement nafta joined the economic futures of canada mexico and the united states with systematic

rules governing trade and investment dispute resolution and economic relations however economic integration among the three countries extends considerably beyond trade and investment the nafta agreement takes a very narrow view of integration barely addressing such vital issues as immigration policy and labor markets the energy sector environmental protection and law enforcement the governments of canada mexico and the united states now must confront the question of whether nafta is enough do they want to keep their trilateral relationship focused on economic matters or are they interested in integrating more deeply perhaps initiating a process to build a north american community similar to the european union this volume contains thoughtful discussions about the future of north america by knowledgeable experts from each of the three countries robert pastor has written one of the more comprehensive books on the subject toward a north american community institute for international economics 2001 andr s rozenthal is an ambassador at large for mexico and president of consejo mexicano de asuntos internacionales the country s leading foreign policy association in mexico perrin beatty is a former foreign minister of canada and currently the president and ceo of the canadian manufacturers and exporters the governments of canada the united states and mexico face thorny challenges as they decide whether and how to accelerate smooth and institutionalize the integration process pastor rozenthal and beatty encourage greater dialogue among the three governments and their citizens as well as more systematic thinking among policymakers and citizens about the promise and challenges of further north american integration this volume considers the promise and challenges o

fna presents for the first time in one published reference source information on the names taxonomic relationships continent wide distributions and morphological characteristics of all plants native and naturalized found in north america north of mexico

this work is a posthumous collection of the descriptive papers of c h bollman on north american myriapoda centipedes and millipedes edited by prof l m underwood who added some notes and prepared an introductory review of the literature on north america myripods a number of individuals helped to collect bollman s papers and prepare the work for publication by the national museum

this 378 page archaeological publication covers the development definition classification and world wide deployment of the lithic bipoint and includes numerous photographs drawings and maps the bipoint is a legacy implement from the old world that is found through time space all over america it was brought into the u s on both coasts the pacific coast introduction was around 17 000 years ago and the

atlantic coast was 23 000 years ago the basic bipoint is defined and its manufacturing processes are presented along with bipoint properties shape form resharpening and cultural associations this publication illustrates numerous bipoints from the atlantic and pacific states and within the u s and presents some of their inferred chronologies which are the oldest in the new world several morphologies between american and iberian bipoints are compared namely the famous virginia cinmar bipoint it concludes that a solutrean occupation did occur on the u s atlantic coastal plain the bipoint is the most misclassified artifact in american archaeology the book is indexed and has extensive references

aquatic monocotyledons of north america brings together information on the natural history ecology and systematics of north american aquatic monocotyledons the book is an overview of the biology of major aquatic species by compiling information from numerous sources that lie scattered among the primary literature herbarium databases and other reference sources information on more than 300 species in 87 genera of monocotyledons will be included recent phylogenetic analyses will be incorporated although focusing specifically on north america the cosmopolitan distribution of many aquatic plants should make this an attractive text to people working virtually anywhere outside of the region as well

north america is really nine nations each has its capital and its distinctive web of power and influence a few are allies but many are adversaries several have readily acknowledged national poets and many have characteristic dialects and mannerisms some are close to being raw frontiers others have four centuries of history each has a peculiar economy each commands a certain emotional allegiance from its citizens these nations look different feel different and sound different from each other and few of their boundaries match the political lines drawn on current maps some are clearly divided topographically by mountains deserts and rivers others are separated by architecture music language and ways of making a living each nation has its own list of desires each nation knows how it plans to get what it needs from whoever s got it most important each nation has a distinct prism through which it views the world
