understanding pakistan emerging voices from india is the outcome of a national
seminar for research scholars on pakistan organized by the centre for pakistan
studies at the mmaj academy of international studies jamia millia islamia new delhi
the aim of the seminar was to explore how young minds in india view pakistan the
quintessential enemy country or the other of india the range of topics included issues
related to pakistan s politics economy popular culture education environment
sectarian divide minorities policy towards jammu kashmir and foreign relations the
established academic discourse on pakistan in india is largely dominated by concerns
linked to security threats emanating from within pakistan due to this overemphasis
on security related issues indian scholarship on pakistan is considered to be highly
subjective and partisan however in this volume most of the young scholars distance
themselves from the main thrust of indian scholarship on pakistan and provide a
fresh perspective on pakistan which can potentially rupture the established tradition

of indian scholarship on pakistan hopefully it will be these scholars who in the near future will be at the forefront of emerging scholarship on pakistan in india
